

Year 3 Home Learning

Set: Friday 26th October 2018

Complete By: Wednesday 7th November 2018

Spelling

Please see the spelling list below. Children should know which spelling group they are in and which spellings they should be practising.

Children can practise learning the words by carefully rewriting them in their book 3 times (Look, Cover, Write, Check). The children can then use their words to create a mnemonic of their hardest spelling e.g.

Because – **B**ig **e**lephants **c**an **a**lways **u**nderstand **s**mall **e**lephants

Said – **S**illy **a**nt **i**s **d**ancing

Sun	Moon	Stars	Universe
it/ix	th	oi/oy	oi/oy
six	the	boy	enjoy
fix	this	coy	destroy
	then	toy	annoy
bit	than	joy	employ
fit	there		destroy
hit	they	coil	voice
kit	their	boil	choice
lit	think	toil	avoid
nit	thin	foil	spoil
pit	thing	coin	toil
sit		point	disappoint

Reading

Children should aim to read their Home Reading book 10/15 minutes every day. Many of the books have additional reading activities inside the front or back cover. Additionally, children are welcome to read: a book from home, a magazine, a newspaper or even a website such as Newsround.

Science

This term in science we are studying the human body. For home learning over half term we would like the children to further research the human body. They may choose to write general facts about the body or might prefer to focus on one particular area (The digestive system, the brain, the heart and blood, the skeleton etc)

Their research can be presented neatly in their books or word processed on a computer. They may like to include pictures.

Maths

This week in Maths we have been subtracting 2 digit numbers on a blank number line. For home learning we would like the children to complete these subtraction sums using a blank number line drawn neatly into their books.

Use the example and the step by step guide to help you.

E.g.

$$38 - 14 = 24$$

1. Draw a neat number line.
2. Put the start number at the **end** of the numberline.
3. Subtract the **tens** using big jumps.
4. Subtract the **units** using small jumps.
5. Find your answer and write it into the sum.

1. $68 - 13 =$

2. $52 - 21 =$

3. $49 - 35 =$

4. $78 - 29 =$

5. $35 - 28 =$

Challenge

$166 - 23 =$

$454 - 38 =$

Thank you for your continued support,

Year 3 Teachers
