

Year 1 Home Learning

Set: Friday 12th October 2018

Complete by: **Wednesday 17th October 2018**

Number Task:

1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20

We are learning to subtract. Please support your child by using household objects (food/toys/ natural objects from the garden etc.) to practise some basic taking away sums. Use the number line at the top of their page to help them to count back. You could include a photograph to show the take away sums you have created together or simply record them on the page. Use both sides of this sheet.

Jelly fish – Taking away from 20 and beyond.

Star fish & angel fish– Taking away from 10.

Clown fish – Taking away from 5.

Kind Regards, Miss Clark and Mrs Johnston
